Web and Mobile Application Developer

Sportsync is an online sports networking platform for athletes, sports teams and sports organizations within the sports industry.

Job Description:

We are looking for a qualified Web and Mobile Application Developer to design and code our new online sports networking platform. You will work as part of a team and individually with little supervision. A great Application Developer has excellent knowledge of at least one programming language. You must be familiar with a variety of operating systems and platforms. The ideal candidate will also have an analytical mindset and a keen eye for detail. The goal is to write clean and flawless code to produce fully functional software applications according to requirements.

Responsibilities:

- Web and Mobile application programming and development.
- Collaborate with a team of IT professionals to set specifications for new application.
- Design creative prototypes according to specifications.
- Perform unit and integration testing before launch.
- Conduct functional and non-functional testing.
- Keeping up with the latest technologies and making use of them to expand and improve our application.
- Responsible for product evaluation, improvement and development to support business growth.
- Responsible for sourcing materials and suppliers for product development projects.
- Review and update ingredients and standard operating procedures of existing products.
- Maintain close coordination with related departments on all product development issues.
- Assist in other ad-hoc projects as assigned and when required.
- Develop growth strategies focused both on financial gain and user satisfaction.
- Promote company's products/services addressing or predicting users' objectives.

Requirements:

- Bachelor's degree in Computer Science, Information Systems, or related disciplines.
- Proven experience as Web and Mobile Application Developer or similar role.
- Expertise in HTML, CSS, Javascript, JSON, AJAX, jQuery, Twitter Bootstrap, etc.
- Familiarity with responsive web design and layouts.
- Excellent understanding of software design and programming principles.

S P O R T S Y N C

- Strong organizational skills to juggle multiple tasks within the constraints of timelines and budgets with business acumen.
- Ability to work and thrive in a fast-paced environment, learn rapidly and master diverse web technologies and techniques.
- Familiarity with business marketing is a plus.
- Being a team-player and maintaining a client-oriented mindset.
- Excellent command of both spoken and written English and Chinese.

Compensation:

- We offer 5-day work week, competitive salary, year-end bonus, and annual leave to the successful candidate.
- Free round trip shuttle bus service will be provided at designated times to/from the Cyberport office: Mei Foo, Tai Wai, Kowloon Tong, Olympic, Han Hau, Yau Tong, Sheung Wan, and Sai Wan.
- Free gym membership at Cyberport.

Application Method:

Interested parties please send your cover letter and resume together with date of availability to mysuccess@affinityed.com for consideration.
